

Animal clinic cleaning: what we clean

Tour the clinic with your practice manager, checking each room against your protocol.

Clinic _____ Address _____
Walked by _____ Date _____

Lobby

- ☐ Entry glass cleaned top to bottom, nose prints included
- ☐ Benches and chair legs wiped
- ☐ Reception counter and payment terminal
- ☐ Walk-on scale platform wiped and dried
- ☐ Hair vacuumed from corners, baseboards and carrier shelf
- ☐ Floor mopped with fresh solution and a clean mop head

Exam and treatment rooms

- ☐ Exam table top, base and lift controls
- ☐ Countertops, cabinet fronts, sink and owner chairs
- ☐ Floor from the corners inward
- ☐ EPA-registered disinfectant on touchpoints for label dwell time
- ☐ Dental stations and imaging rooms to the same protocol

Kennels and grooming

- ☐ Animal moved by your team before the run is cleaned
- ☐ Run or cage walls, doors and latches
- ☐ Floor rinsed and squeegeed to the drain, left dry
- ☐ Concrete runs machine scrubbed on a schedule
- ☐ Grooming tubs, tables and walls cleared of hair
- ☐ Hair pulled from the floor drain

Surgery suite, lab and pharmacy

- ☐ Surgery suite only after staff clear it
- ☐ Listed surfaces in your protocol's order, floor edge to edge
- ☐ Lab and pharmacy counters and sinks once released
- ☐ Samples, medications and equipment left in place

Odor spots and floors

- ☐ Corners behind doors and ward wall bases
- ☐ Floor drains and the trash room
- ☐ Return-air grilles cleared of hair
- ☐ Sheet vinyl and tile stripped and refinished on your calendar

Staff rooms and schedule

- ☐ Break rooms, locker areas and the doctor's office
- ☐ Restrooms cleaned fixture by fixture
- ☐ Client files, screens and invoices left untouched
- ☐ After closing, before opening or overnight around boarders
- ☐ Terminal clean of a clinical room when your director asks
